| " 1911-1912 | 138,121 | 23,183 | 16.78 | 133,710 | 3,613 | 2.70 | 82,406 | 2,111 | 2.56 |
| " 1912-1913 | 150,542 | 26,454 | 17.57 | 139,009 | 1,543 | 1.11 | 112,881 | 1,928 | 1.71 |
| Average.. |  |  | 17.03 |  |  | 3.22 |  |  | 6.27 |

From the above statement it will be seen that from July 1, 1904, to March 31, 1913, bonus was paid on 17.03 per cent. of British immigrants, 3.22 per cent. of immigrants coming from the United States, and on 6.27 per cent. of immigrants from the Continent.
The statement on page 25 shows that the homestead entries in Western Canada alone account for more people than
those on whom bonus was paid.
STATEMENT SHOWING THE NUMEER OF ENTRIES MADE FOR HOMESTEADS FROM JANUARY 1, 1897. TO MARCH 31, 1913, ALSO THE NUMBER OF THESE ENTRIES MADE BY ENGLISH,
SCOTCH, IRISH, AMERICAN AND CONTINENTAL IMMIGRANTS.

## NOTES.

The many enquiries received by the Immigration Department from time to time with regard to the immigration policy and methods appear to call for a brief review of the subject under the following heads:-

1. The Fields or Countries from which Immigration is Drawn; 2. The Methods pursued for the Encouragement of Immigration; 3. The Handling of Immigrants on and after Arrival in Canada; 4. The Canadian Immigration Regulations.

## 1. THE FIELDS OR COUNTRIES FROM WHICH IMMIGRATION IS DRAWN.

Canada seeks immigration from the British Isles, the United States and certain continental countries, such as France, Belgium, Holland, Denmark (including Iceland) Norway, Sweden, Switzerland and Germany. At variou's times during the past two derades efforts have also been made in Finland, Russia and Austro-Hungary. At present the advertising propaganda does not include the last three countries mentioned. Canada does not seek fmmigration from any British colony, as most of these in which the majority of population is English-speaking, are themselves desirous of increasing their population by immigration. Canada does not seek the immigration of Southern Europeans or Asiatics of any race, and those who come to Canada from such countries are attracted by the industrial conditions here or are induced to come by employers of labour, such as railway contractors.
2. THE METHODS PURSUED FOR THE
ENCOURAGEMENT OF IMMIGRATION.

Canada advertises only for farmers, farm labourers and female domestic servants, and these are the only classes who are guaranteed employment on arrival. The same methods are not employed in every country. In the British Isles advertising is done by:-(i) the establishment of regular agencies, there being eight in England and Wales two in Scotland and two in Ireland; (ii) newspaner publicity; (iii) free distribution of pamphlets; (iv) exhibits of Canadian fruit, grain, etc., in Canadian Government Offices, in offices of the leading steamship booking agents, and exhibits at agricultural fairs throughout the United Kingdom; (v) exhibition waggons which carry samples of grain and grasses, etc., as well as a stock of free literature. These travel through country districts and into out-of-the-way
places to people who would not otherwise be reached; (vi) illustrated lectures on Canada by regular agents, and by farmer delegates, a number of whom are sent annually during the winter months to tell of personal experiences in Canada; (vii) payment of bonus to steamship booking agents, the bonus being paid on agriculturists and domestics induced by them to come to Canada.

The methods pursued in the United States are somewhat different, being confined largely to (i) newspaper advertising; (ii) distribution of literature; (iii) exhibits at county and state fairs in the eastern, central and northern states.

On the continent of Europe advertising is done by (i) distribution of literature in the languages of the countries in which it is distributed; (ii) newspaper and magazine publicity wherever possible; (iii) the payment to selected steamship booking agents of a bonus on agriculturists and domestics; (iv) the establishment of regular agencies for making Canada known,-there being two such at present, one in France and one in Belgium. The expenditure on immigration for a period of years, will be seen by reference to the table on page 28, and another table on page 24 shows the percentages on whom bonus was paid.

## 3. THE HANDLING OF IMMIGRANTS ON AND AFTER ARRIVAL IN CANADA.

Every immigrant seeking to land in Canada at ocean ports is examined by medical and civil officers, and those seeking admission from the United States are examined by immigration officers stationed on the highways of travel on the International Boundary. Those rejected are summarily returned to the country from which they came. The rejections with the causes will be seen by referring to the table on pages $12,13,14,15$, and 18 of this pamphlet.

As Canada advertises only for agriculturists (actual or intending) and female domestic servants, most of the machinery for looking after people after their arrival in Canada is created with the object of securing suitable situations for these classes. The Dominion Immigration Agents at ocean ports, as well as Immigration Agents at other places, such as Charlottetown, P.E.I., Windsor, N.S., Fredericton, N.B., Montreal and Compton, P.Q., Toronto, Hamilton and London, Ont., and, Canadian Government Employment Agents in various parts of Quebec and Ontario, arrange for situations and direct immigrants to employment absolutely free of cnarge. Immigrants going to Western Canada are, for the most part, placed in situations, or directed to employment, through the office of the Commissioner of Immigration at Winnipeg.

Not only are immigration agencies maintained at various points, but immigration buildings are provided at some ocean ports for the temporary accommodation of the new arrival. An immigration hall is also provided at Toronto and another at Winnipeg, while smaller immigration buildings are maintained at various points in Manitoba, Saskatchewan and Alberta for the free temporary accommodation of the new settler and his family while in search of land.

## 4. THE CANADIAN IMMIGRATION REGULATIONS.

The Canadian Government has no system of free or assisted passages, and no immigrant is ever brought to Canada at the expense of the Government. Numbers of immigrants are assisted to Canada by charitable and philanthropic societies in the United Kingdom, while others are provided with passage by friends at home or in Canada.

Free transportation on Canadian railroads is not furnished to immigrants by the Canadian Government. A special rate known as the overseas rate is obcained by overseas passengers in connection with their ocean tickets. There is no special rate obtainable through the Canadian Government for persons desiring to travel from one part of Canada to another after their arrival. A low rate is granted by the railway companies under certain conditions to persons entering from the United States to acquire lard in Manitoba, Saskatchewan and Alberta.

The immigration regulations require that immigrants arriving between the first day of March and the thirtyfirst day of October shall have in actual and personal possession at time of arrival, money belonging to themselves to the amoun't of at least $\$ 25$ in addition to ticket to destination in Canada. If arriving between the first of November and the last day of February, the amount of landing money required is $\$ 50$. Aslatics (except Chinese and Japanese) are required to have $\$ 200$ at time of arrival. Chinese pay a head-tax of $\$ 500$, and Japanese immigration is restricted by an Agreement between the Government ot Japan and of Canada.

Certain persons are exempt from the money regulation, the classes being as follows: (i) immigrants going to assured employment at farm work, (ii) female immigrants going to employment as domestic servants, (iii) immigrants, whether male or female, going to a relative as follows (a) wife going to husband (b) child going to parent (c) brother or sister going to brother (d) minor going to married or independent sister (e) parent going
to son or daughter, providing always that the relative in Canada is in a position to receive and care for the immigrant.

The exemption from money regulation does not apply to immigrants belonging to any Asiatic race.

The Canadian Immigration Act absolutely prohibits the landing in Canada of (i) idiots, imbéciles, feebleminded persons, epileptics, insane persons, and persons who have been insane within five years previous, (ii) persons afflicted with any loathsome disease or with a disease which is contagious or iniectious, or which may become dangerous to the public health, (iii) immigrants who are dumb, blind or otherwise physically defective, unless they belong to a family accompanying which gives satisfactory security or are going to relatives in Canada which give security or unless they have sufficient money, occupation, trade or employment to guarantee that they will not become a public charge, (iv) persons coming into Canada for any immoral purpose, and prostitutes and persons living on the avails of prostitution, (v) professional beggars, vagrants or persons likely to become a public charge.

The Canadian Immigration Act provides for the deportation of undesirable immigrants, within three years from the date of their landing in Canada. Full particulars about this matter can be obtained free of charge on writing to the Superintenden't of Immigration, Ottawa, Canada.

By referring to table on pages 20 and 21 of this pamphlet, information will be obtained regarding deportations with causes, for a number of years.

A47 Immigration facts and
1913 figures

[^0]:    Immigrants are those who have never been in Canada before, and who declare their intention to reside here permanently

    Returned Canadians are those who were born in Canada or who have been here before.
    Tourists are those who say they are in Canada on a visit.
    Saloon passangers are those travelling on first-class tickets.
    Returned Canadians, tourists and saloon passengers are not included in our immigration figures.

[^2]:    of English, 16 per cent, of Scotch, 20 per cent. of Irish, 33 per cent. of American, and 29 per cent. of Continental immigrants made entry for homesteads.

    It will be observed from the foregoing that the number of immigrants represented by the homestead entries in the Western Provinces is much larger than the number on whom bonus was paid, and these entries do not account for the thousands of farmers and farm lat:ourers k ho settled in all parts of the Dominion without homesteading.
